Front Office

The front office has been renovated into assessment classrooms for children with special needs. These bright new rooms are designed to help both children and teachers to evaluate their academic abilities.

Veggie Garden

With successful growth of our veggie garden we were excited to pick our fresh produce. With pruning and planting we've begun our second round of plantation.

New Classrooms

With the yearly growth of new students, three classrooms are currently being built. These rooms are designed to withstand the heat during the summer months. This will keep both students and teachers motivated to work hard. They are expected to be finished by the end of the month.

Back To School!

Summer term has just begun with the return of students eager to learn! Dressed in their fresh summer uniforms the children are embracing the heat.

There are lots of new projects being started and completed this month with additional classrooms, examinations rooms and rejuvenating the vegetable garden. Volunteers have been both beginning and finishing their journey with Tender Heart, making exciting contributions.
